

Pinon Reservoir/Lake

*(Revised 1-13-17)*

Buyer acknowledges and understands that there is no FORMAL trail system that was contemplated, built or anticipated to be built around Pinon Lake. There are several ownership entities in and around the Lake. This area between the shoreline and rear property lines that abut the Lake is subject to pedestrian traffic. As water levels fluctuate, this shore line is will increase and decrease in width from time to time. We anticipate pedestrian traffic will be on this informal trail between the rear property lines abutting the lake and shoreline, since it is public property.
