The following Checklist is to be used for homes within the Community of Bristlecone. This Checklist is based on the Landscape Design Guidelines. The homeowner should review the Guidelines in preparing the required Landscape Planting Plan.

The homeowner is responsible for preparing a Landscape Planting Plan to be submitted and approved by the Forest Lakes Architectural Control Committee (ACC) prior to installing any exterior elements or improvements. The homeowner is required to submit (preferred electronically) 2 copies of each of these two items:

- 1. An application explaining the request (include front and rear photos of the home if available).
- 2. A Landscape Planting Plan – graphically scaled drawing (i.e. 1" = 10').

The Landscape Planting Plan should follow the Landscape Plan Checklist, indicating with labeling existing and proposed exterior elements. To expedite reviews, please include additional plans, such as deck and home addition details as required by the Pikes Peak Regional Building Department, and manufacturer's information for any specialty features or elements so the ACC can thoroughly review the Landscape Planting Plan.

**LANDSCAPE PLANTING PLANS SHALL INCLUDE THE FOLLOWING PLAN ELEMENTS AND NOTES:**
